

AUTOMATED POSTAL CENTER (APC) POSTAGE

Samples of mail using Automated Postal Center (APC) postage stamps

AUTOMATED POSTAL CENTER (APC) POSTAGE - The above image contains sample mail where the postage used were from stamps purchased from machines located in United States Postal Service (USPS) lobbies. These types of postage may or may not have purchase dates on them. Letters using APC postage do not receive the USPS postmark. **The Tax Collector's Office uses the date we receive these envelopes in our office to determine if a payment is timely or delinquent.**

Please mail your payment early enough to account of unforeseen delays in mail handling.

Note: The postage rate used in this example was the postage rate in effect at the time the items were mailed and may differ from the current rate. Please consult the United States Postal Service for the correct/current postage rate for your letter.
